

## Tracker Corp Introduces SmartBatch Close Feature to Optimize Closure of Authorized E-Verify® Cases

**SAN FRANCISCO, CA – February 08, 2011** Tracker Corp, <http://trackercorp.com>, the most innovative developer of Form I-9 compliance and immigration management software, announced the introduction of a new feature in its [Tracker I-9](#) software that intelligently batch-automates the closing of E-Verify cases that have returned as "Approved for Employment" by the USCIS.

E-Verify is the web-based system operated by US Citizenship and Immigration Services (USCIS) and the Social Security Administration (SSA) which enables an employer to verify the employment eligibility of job applicants. Approximately 97% of all E-Verify cases submitted confirm the applicant as "Approved for Employment."

Ordinarily, employers using E-Verify (either via other third-party I-9 software or directly through the E-Verify system) must select each approved employee's case, classify that case, answer two questions about employment status, and click the "Close Case" button. This manual process becomes a tedious and time-consuming affair for human resources managers at large companies, sometimes faced with closing tens to hundreds of cases at a time.

Tracker now provides a dashboard summary view of all case to consider for closure, and with the press of one button, Tracker I-9's exclusive E-Verify SmartBatch™ feature automates the closing of multiple approved cases that qualify for identical closure codes. Employers can easily exclude cases that they believe may have an unsure approval status.

"Tracker's new E-Verify SmartBatch strategy is another awesome example of Tracker innovating to eliminate the pain points and inefficiencies employers face in the I-9 compliance and E-Verify process," said Brett Weiss, CEO at Tracker Corp. "We never stop listening to our customers and asking them how we can improve their real world experiences with the process."

**Tracker Corp** provides software for immigration management, I-9 compliance and E-Verify. Used by more than 75% of the leading immigration law firms and many Fortune 1000 companies, hospitals and universities, Tracker Corp products include [ImmigrationTracker](#)™ software and [Tracker I-9](#) compliance software. Founded in 1998, Tracker Corp is privately held and based in San Francisco, CA. For more information, visit <http://www.trackercorp.com>.
